

REMOTE TRAINING

FSSC Version 5.1 Awareness

1st March 2021

Objective

Get to know the content and requirements of FSSC 22000 v 5.1 as below:

- Ensure that relevant personnel in your organization are trained and understand the requirements and key changes.
- Identify gaps which need to be addressed to meet the new requirements and establish an implementation plan. Implement actions and update
- your management system to meet the new requirements.
- Evaluate the effectiveness of implementation through
- internal audits and define further actions where needed.
- Our auditors are prepared and have a full overview of the
- changes and what is required to transition from FSSC 22000 v 4.1 to v 5.1. We
- can support you in all phases of the transition, so that you can start preparing, assess your level of readiness and efficiently complete that transition.
