### **LETTER OF COMMENDATION**

On behalf of DNV Malaysia, I wish to thank United Universal Consulting Sdn Bhd for their efforts in the execution of training sessions to our clients. We are pleased with the quality of training provided by U2C teams. The execution definitely met our expectations and received good rating from our training participants.

U2C team preparation in advance of the session, including the adaptation to our corporate requirements, enable our clients to meet the intended needs of the training. The delivery was pitched in a way that was challenging for both new and experienced members of the team.

Thank you for your efforts in helping to make a successful collaboration and we look forward to working with you in the future.

Yours faithfully  
For DNVGL INTERNATIONAL SDN BHD
